**JOHN DEERE**  
Nothing runs like a Deere®

**QUICK AND EASY GLOBAL  
ACCESS TO INFORMATION**

CPS Online is a pathway to the most precious commodity of all—information. Your business requires you obtain information you need on equipment, parts, and services. This information needs to be timely, accessible, and easy to understand. It let's you solve problems—no matter what time of day. CPS Online is John Deere's way of taking a giant step towards meeting your individual need for information.

CPS Online provides you with information directly with access points to other pertinent applications.

**SELF-REGISTER TODAY FOR ADDITIONAL  
INDIVIDUALIZED INFORMATION**

What will differentiate you in your business? The key is knowledge. Self-registering to CPS provides you with additional information to keep you ahead of the competition—and it's simple. You create your own ID and password to access this information.

- > Customer Technical Assistance Center

## **WE'LL BE THERE TO HELP**

Your CSA is a highly trained product support professional who can help link you to additional secured applications in CPS Online. After you self-register, contact your CSA about additional information and access through CPS. Then he'll spend time to make sure you're comfortable navigating through the applications.

Connect to a new source of information that will help you make more informed business decisions. Connect with Customer Personal Service Online at [www.johndeere.com/deerecom/contractors](http://www.johndeere.com/deerecom/contractors) under the heading "Customer Support."

The information available will continue to grow as applications and services are developed. Keep in touch with your John Deere Customer Support Advisor (CSA) to stay connected with the latest in information technology.
